Extract from Interrogation of
General Hideki TOJO
11 March 1946
P. 4

- Q Is it not true that, during the period between 6 September 1941 and 10-20 October 1941, preparations for war were pushed?
- A As I said before, at that conference which dealt with peace or war, it was decided that both peace preparations and war preparations would be pushed. Read back to the witness who agreed as to its correctness. It was only after that decision that preparations were pushed.
